Sussex Iris Company Background

- We have been building irises for over 10 years.
- In 2016, we set up our own manufacturing company specialising in the design and manufacturing of bespoke irises.
- Since we set up Sussex Iris, we have designed created a number of innovative designs, not available elsewhere.
- And we continue to innovate.
- Our design experience stems from many years in the mechanical engineering and precision machining of manual and electronically operated irises.
- We are now looking to expand our customer base as we develop improved manufacturing technologies.

What We Do

- We can supply precision engineered irises, including:
 - CAD design, full engineering drawings, images and animation,
 - working samples of a new design,
 - low or high volumes of the finished product for manually or electronically operated irises.
- We will work with you at every stage of the design and development lifecycle of the product.

We have a strict code of manufacture and checking that ensures the highest level of quality is achieved.

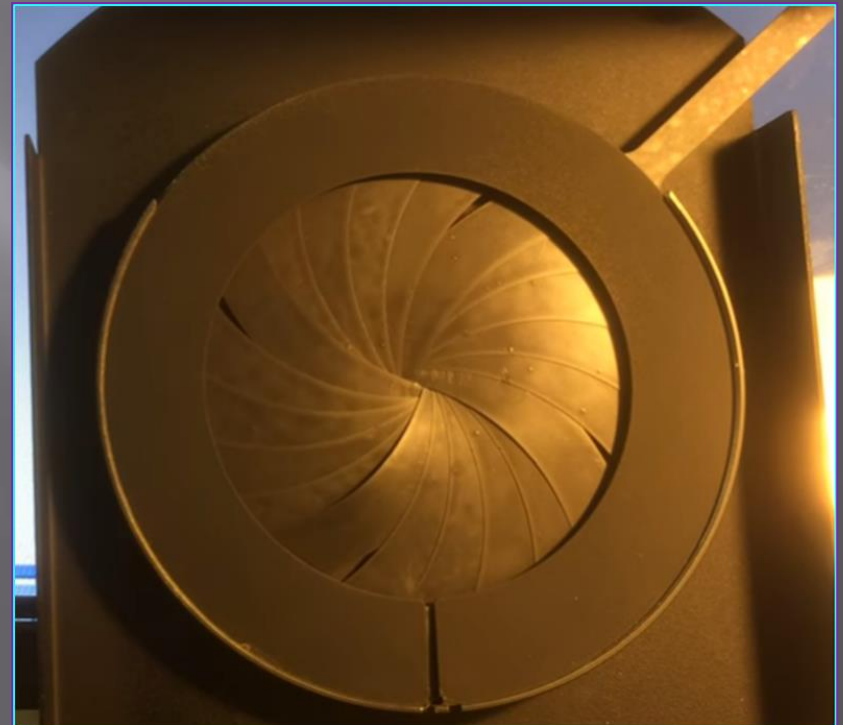

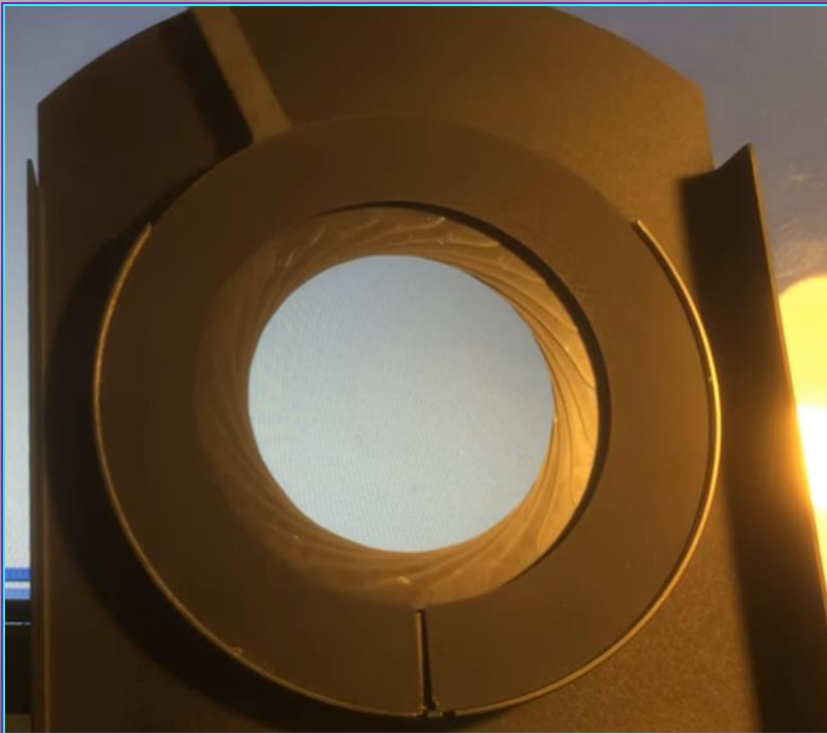

What We Do

- Applications:
 - Stage and theatre lighting,
 - Opto engineering,
 - Scientific engineering,
 - Laser applications,
 - Research and development projects.
- Where necessary, non-disclosure agreements can be put in place.

Innovation

Manual Single Plane Blackout Iris

Quality Control

- Repeat business is based on delivery of sustained quality:
 - Each iris is quality checked before it leaves the factory.
 - Machining
 - Paint,
 - Extrusions,
 - Pinning,
 - Heat Testing

Our multi-point quality control process covers the full life-cycle of the process, from design, through manufacturing, to testing the final product.

Quality Control

- Our installation
 - We use a wide range of high precision CNC controlled machinery for:
 - Milling,
 - Turning
 - Wire erosion and
 - Laser cutting

Our Offer to You

- We would like the opportunity to meet you:
 - Showcase our products,
 - Discuss your requirements and how we can work with you,
 - Leave you a sample iris,
 - Set up a follow-up meeting.

Our pricing is competitive.
